POLICE DEPARTMENT REPORT Town of Ossipee, N. H.

Townspeople of Ossipee:

The Ossipee Police Department answered 160 calls during 1967. More than half of these required the presence of two or more officers. On a number of these cases, assistance was required from other Departments.

No one can satisfy everyone. Police Officers are particularly vulnerable to criticism and censure. However, time and again they answer a call not knowing what kind of crisis they will encounter—possibly risking physical abuse or, worse. Nevertheless they go when called.

Your Police Department is no exception. The Ossipee Police officers handled some rough cases during 1967, and handled them well. As Chief of Police during 7 months of the past year, I commend these Officers for a job well done.

The office of Chief of Police is more and more demanding of time as each year passes. There is no question but what Ossipee need a full-time Chief. I cannot fill this requirement. Therefore, in deference to the needs of the town in this respect, I resigned as Chief of Police on August 12, 1967, with the sincere desire that an experienced full-time chief be appointed to this increasingly important spot.

On the subject of radio: The County radio, manned and operated by the Carroll County Sheriff's Department, is proving itself invaluable as each month passes. This radio set-up is open to municipal Police departments in the county, at no cost to the towns other than their own sets, and there are a number of towns

already tied into this system. Others are working their budgets this year to include a radio.

Ossipee is a very active area, and a mobile unit in an officers car here would give our town contact in minutes with other departments in the county—or the state.

Modern law enforcement is radio dispatched, and I certainly hope that Ossipee will join this circle of protection.

To the townspeople of Ossipee and to its police officers, may I thank you for your assistance and fine cooperation during the past four years.

| Following is a breakdown of cases during 1967: | |
|--|----|
| Dogs or animals | 6 |
| Domestic and neighborhood problems | 14 |
| Breaking-entering, thefts & vandalism | 10 |
| Juvenile | 17 |
| Drunk and disorderly | 12 |

REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

After several successive years of drought, the rains of 1967 came as a welcome change. Our record of the past fire season is good. Our thanks to all who contributed to achieve this good record. Continued improvement in the matter of accurate, prompt detection and rapid effective suppression action can help to maintain this good, worthwhile record even though we do not have an abundance of rain as in the fire season of 1967.

It will help if we follow these simple suggestions:

1. No burning of debris and waste between the hours of 9:00 A. M. and 5:00 P. M. and then only with a written permit from the Forest Fire Warden.
2. Take debris and waste to the town dump.
3. Maintain a clean, safe dump.
4. Keep matches away from young children.
5. Be sure matches and smoking material are dead out when we discard them.
6. Set a good example for others in fire prevention.

Board of Selectmen

Town of Ossipee

New Hampshire

Gentlemen:

In 1967 your town appropriated funds for continuing control of the White Pine Blister Rust in co-operation with the Division of Resources Development. Final returns to the Division showed that 145 towns and cities, once again the largest number in the history of the work, did likewise. This vote of continued confidence in the Department by the public is most encouraging and sincerely appreciated.

Conforming to our yearly custom, there has been prepared, and is attached herewith, a statement briefly summarizing accomplishments, and expenditures of town, state and federal funds.

In our financial statement, the amount reported as "Cooperative Aid" covers not only expenditures for actual ribes eradication, but also state and federal funds spent in 1. detailed mapping and inspection of areas prior to actual control work, 2. research work that has reduced the size of the control area, and 3. research in control methods to reduce costs of control work. The mapping survey provides a permanent record which is of great value in planning future examinations and workings of white pine stands in your community.

Because details of control work can vary in communities, it is not possible to cover all in a brief statement. However, the supervisor of the control project in your town will, in the course of his planned public

relations work, contact you and members of your Board in the near future to discuss the present status of the project and his future plans as it pertains to your community.

Control of the White Pine Blister Rust disease has been established on 98.7% of the entire state control area (2,500,000 acres). We are fast approaching our goal when the entire area will be on a controlled basis, requiring only minimum funds to maintain this condition.

Thanking you for your past and continuing cooperation, I remain,

Very truly yours,
THEODORE NATTI, Director
Division of Resources
Development
